2010 MOORING INSPECTORS

Dear Permit Holder,

Enclosed is the 2010 Warren Mooring Decals. Please place the larger mooring sticker on the mooring float just above the mooring number. The mooring float should display the mooring number in 3 inch block lettering. (See below) **The smaller sticker is to be placed on the top, right corner of the vessel's transom.**

Mandatory mooring inspection reports are due on or before September 1st of each calendar year. Even numbered moorings are to be inspected on even numbered years, odd numbered moorings on odd numbered years.

Residential and Non-Residential Moorings cannot be rented. Only the vessel permitted can occupy the mooring. All moorings must be maintained and be visible year round. Failing to maintain a mooring will result in the forfeiture of the mooring permit.
