April 2, 2010

Dear Resident:

If you have damaged property as a result of the heavy rainfall over the past week, either structural or personal, the Federal Emergency Management Agency has a web site for those affected; this site is <http://www.fema.gov/assistance/index.shtm>.

You are encouraged to visit the web site prior to making repairs other than those of an emergency nature, or discarding damaged property; and to thoroughly document all damage with photographs and receipts.

Hazardous materials disposal sites throughout the state will be set up by the Rhode Island Department of Environmental Management for individuals needing to dispose of damaged equipment or hazardous materials. **Please do not discard any of these materials in the Warren Transfer Station.**

If you have any questions or need further assistance, please contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Alexander R. Galinelli".

Alexander R. Galinelli  
Chief
